

First Aid at Work - Requalification

Two Day (12 Hour) Practical Course

Overview

This is a requalification course and is only suitable for those who currently hold an in date FAW certificate. If your certificate has expired you are still able to attend this course, but the HSE recommends you attend the First Aid at Work (3 day course) if more than a month has elapsed since expiry. Please call us on 0300 3020 999 for further guidance.

Please note that the requalification course is an intensive course with very little practice time and designed for people whose certificate is still in date. If you do decide to attend the requalification course you will need to work at the pace of the course.

Candidates need a basic command of English (defined as Level 2). While we are often able to provide support to people who do not have English as a first language, our ability to do so is limited by the time available and the number of people who require assistance. We may be able to make special arrangements if requested in advance. Please contact us if you need any guidance.

What to expect

- Comprehensive trainer-led practical training day
- Professional, qualified, and dynamic trainers
- Specialist advisors to help you manage your booking
